# Study Skills: Growth Mindset Programme

## Transforming Students Motivation to Learn

In this six week programme, students will develop a Growth Mindset. The Growth Mindset programme combines online, interactive animation with classroom-based activities to teach students how the brain changes with learning, and how they can use brain-based study strategies to accelerate their progress.

Research shows that when students understand that they can develop their intelligence through learning, they are motivated to seek challenge, value learning, invest effort, and persist through difficulty- and they achieve more highly. Let us help your middle-schooler develop a Growth Mindset.
